Claude AI & Claude Code  
HTML / CSS  
SolidWorks / CAD

#### Focus Areas

Mobile-First Design  
Accessibility (WCAG)  
Animation & Motion  
Cross-Platform Design  
Conversion Optimisation

### EXPERIENCE

#### UX Designer — Sportsbet

Oct 2022 – Present

Mobile Design · Design Systems · User Research · Accessibility · Animation

- Led design of the Event Promotions Bottom Sheet — a context-aware component that surfaces relevant offers at the moment of decision, improving promotional discovery
- Redesigned KYC compliance flow using progressive disclosure and plain-language explanations, transforming a high-abandonment process into a streamlined experience
- Created animation standards across iOS, Android, React Native, and CSS/JS — including reduced motion specifications for accessibility
- Contributed to the company design system including the Generosity Design sub-system for promotional interfaces
- Led design initiatives, facilitated workshops, and conducted user research with cross-functional teams

#### UX/UI Designer — Creature Technology Company

Aug 2021 – Sep 2022

HMI Design · Design Systems · Design Sprints · Usability Testing

- Designed SCATA HMI interface for animatronic control systems — reducing cognitive load through improved information architecture
- Built design system with colour-blindness accessibility considerations; led user research and design sprints

### EARLIER EXPERIENCE

#### Product Designer — Informed Design

2020 – 2021

Project management, client consultations, international manufacturing coordination, instructional design

#### Industrial Designer — Barkbusters

2018 – 2019

Production design, client consultations, graphic design, product photography, convention displays

### EDUCATION

#### Bachelor of Industrial Design (Honours) — Monash University

2011 – 2016

#### Google UX Design Certificate — Coursera

2021 – 2022
